

COLOR HARDENER

Colored Dry Shake Hardener

Product Description

Deco-Crete Color Hardener is a colored dry shake hardener that is broadcast by hand over the top of freshly placed concrete and worked in with a wood or resin float to form a dense, colored concrete "skin" on the slab surface. When used with Deco-Crete Antique Release, the ultimate textured surface can be achieved. The color hardened surface can also be stained or dyed after the concrete has cured for approximately 28 days. Sealing is highly recommended for all decorative concrete. For best results, use Diamond Shine or Super Stamp Seal decorative concrete sealers for ultimate color enhancement.

Benefits & Features

- Formulated with only quality ingredients for a denser, more durable surface.
- The denser surface reveals a greater amount of texture from the stamping mats.
- Made with stable, UV resistant, streak free iron oxide pigments.
- Available in 40 standard colors.

Coverage

Deco Crete Color Hardener should be applied using the broadcast method at the rate of at least 60 pounds per 100 square feet in two applications. Pastel shades or light colors may require up to 60 pounds per 80 square feet. The first application requires at least 40 pounds per 100 square feet. The second application should give complete and uniform coverage.

Caution

KEEP OUT OF REACH OF CHILDREN. Before using or handling, read the Material Safety Data Sheet and Warranty. DO NOT TAKE INTERNALLY. Avoid contact with skin and eye. Use only with adequate ventilation and use a respirator when exposure levels are above applicable limits.

Warranty

This product is not for public use and is intended for use by licensed contractors, experienced and trained in the use of these products. It is warranted to be of uniform quality with manufacturing tolerances. The manufacturer has no control over the used of this product, therefore, no warranty, expressed or implied, is or can be made either as to the affects or as results of such use. In any case, the manufacturer's obligations shall be limited to refunding the purchase price or replacing material proven defective. The end user shall be responsible for determining product's suitability and assumes all risks and liability.

Notes

Deco Crete is not responsible for application methods, finishing techniques or any other variables that cannot guarantee the final appearance to be an exact match. Texturing or other finishing techniques such as troweling or brooming, slight variations in raw materials, and the use of sealers may produce color variations. Deco-Crete Supply recommends that a representative jobsite sample be made for each product used.
