LIQUID METALS

HIGH PERFORMANCE COATING SYSTEMS

ELECTRIC EPOXY

Rockin' Benefits

- 100% Epoxy = Extreme Durability
- Seamless Flooring with no Grout Lines
- Easy to Clean and Maintain
- Limitless Color Options
- Available in 3 gallon & 15 gallon kit
- Base coat 150 sq ft per gallon
- Metallic coat 75 sq ft per gallon
- Mix Ratio: 2A - 1B

Liquid Metals Are Perfect For

- Retail Stores
- Living Spaces
- Office Buildings
- Garage Floors

8 oz by weight to be mixed with a 3 gallon kit of Electric Epoxy

4. Clear Top Coat
3. Metallic Coat
2. Base Coat
1. Prepped Concrete

LIQUID METALS

HIGH PERFORMANCE COATING SYSTEMS

URETHANES

Rock Hard Urethane

Specially formulated, two component, low viscosity acrylic urethane. Rock Hard out performs many similar products on today's market.

- Provides High gloss
- Abrasion resistant finish
- Superior UV stability
- Available in 1.25 gallon and 5 gallon kits
- Mix Ratio 4A - 1B
- Coverage: 200 - 300 square feet per gallon

WB Matte Urethane

- High solids, matte finish, two-component water based aliphatic polyurethane.
- Excellent hardness, abrasion resistance, hot tire resistance, chemical resistance
- Low VOC, and low odor with multiple uses
- Available in 3 gallon kit
- Mix Ratio 2A - 1B
- Coverage: 200 - 300 square feet per gallon

LIQUID METALS

HIGH PERFORMANCE COATING SYSTEMS

CRACK REPAIR

Quik Fix Filler

- Rapid set time allows for minimal down time allowing the user to offer quick return to service
- Works well even in cold climate applications
- Ultra low viscosity formula allows for easy application
- Coverage varies
- Available in 1 gallon and 2 gallon
- Mix Ratio 1A - 1B

COMMERCIAL & INDUSTRIAL RESINOUS FLOORING

POLY ARMOUR

HIGH PERFORMANCE COATING SYSTEMS

The quickest, most immediate way to create an attractive yet durable floor in most situations. Solid color or broadcast, it's the preferred choice of contractors for saving time and labor while providing that sought after combination of strength and beauty.

Poly Armour Clear 70, 80SC, 100

- Crystal clear high performance sealer, durability unrivaled by other top coats.
- Excellent Abrasion & Chemical Resistance
- Low Temperature Installation
- Low Odor Formula (Poly Armour 100)
- Slow Cure Option (Poly Armour 80SC)

- *70 -200 - 300 ft² per gallon*
- *80sc -200 - 300 ft² per gallon*
- *100 -100 - 250 ft² per gallon*

POLY ARMOUR Advantages:

- One day installation
- Next day return to service
- Superior stain & chemical resistance
- UV stable - Non yellowing
- No VOC & odor free applications available
- Mix Ratio: 1A - 1B
- Extreme durability
- Low temperature cure
- No hot tire pick up
- Available in 2 gallon or 10 gallon kits

1. Prepped Concrete
2. Prime Coat
3. Base Coat
4. Top Coat

POLY ARMOUR

SHORT FILLED 70, 80sc, 100

Short Filled Kit

- Provides ultimate abrasion, impact and wear resistance far exceeding many other applications
- Entire application, in most cases, can be accomplished in just one day
- Excellent penetrating and bonding capabilities provide many years of durability
- Highly economical considering the days of labor that can be saved by using a one day application
- Armour Tint is mixed into Part A of Poly Armour
- Available in 1.75 gallon or 8.75 gallon kit

ARMOUR TINT™

- Color Pack for Poly Armour Short Filled Kit
- A high solids, concentrated, solvent based tint system specially formulated for Poly Armour
- A superior choice to obtain a semi transparent stain or a solid opaque colored finish
- Mixes into Part A of the Poly Armour Short Filled
- 15 popular colors

Armour tint sold separately

70 -200 - 300 ft² per gallon
80sc -200 - 300 ft² per gallon
100 -100 - 250 ft² per gallon

POLY ARMOUR

100% EPOXY

100 Epoxy

- A 100% solids, two component, cyclo-aliphatic amine epoxy system with excellent durability including abrasion resistance, chemical resistance & hot tire resistance
- User friendly high performance concrete flooring system.
- Designed for a variety of seamless high build concrete flooring applications
- An excellent coating for auto service centers, warehouses, computer rooms, laboratories, aircraft hangars, cafeterias, exterior tanks and other areas where high performance, abrasion resistance and chemical resistance are required
- Also an excellent coating choice for interior decorative concrete
- Available in 3 gallon & 15 gallon kit
- Mix Ratio 2A - 1B

COVERAGE RATE: 75 - 125 ft. per gallon*

100 Epoxy Tint

- A high solids, concentrated, solvent based tint system specially formulated for Poly Armour 100 Epoxy
- A superior choice to obtain a semi transparent stain or a solid opaque colored finish
- Mixes into Part A of the Poly Armour 100 Epoxy

4. Top Coat
3. Tint Coat
2. Base Coat
1. Concrete

*No VOC & odor free available

POLY ARMOUR

PRIMER

Moisture Shield

- A high performance epoxy primer system designed to reduce water vapor transmission
- Superior adhesion for concrete affected by moisture vapor transmission
- Excellent base coat for many epoxies and urethanes
- Performs well where other coatings fail
- Available in 3 gallon kit
- Mix Ratio 2A -1B

4. Top Coat
3. Base Coat
2. Prime Coat
1. Concrete

COVERAGE RATE: 200 - 250 ft per gallon* @ 6- 8 mills

WB Epoxy

Specially formulated, low odor, two component, water based epoxy primer for interior use. This product provides excellent substrate penetration and is a suitable primer for most epoxies, urethanes, polyureas & polyaspartic polyureas.

COVERAGE RATE: 200 - 300 ft per gallon* @ 2 - 3 mills

- Low viscosity allows for excellent substrate wetting and penetration.
- Provides superior bond to concrete, making it an ideal primer for many other coatings.
- Fast cure times and low odor make this a concrete contractor`s favorite primer.
- Works well as a stand alone, clear epoxy for interior applications.
- Available in 2 gallon kit
- Mix Ratio: 1A - 1B

POLY ARMOUR

SPECIALTY PRODUCTS

Floor Flex

- A single component flexible waterproofing membrane that creates a seamless isolation barrier over wood and concrete surfaces
- Can be used as a stand-alone or a flexible underlayment for Deco-Crete coatings & overlays
- Available in 5 gallon pails

Ultra Clear 100

- Super clear, self leveling countertop epoxy
- Designed for high build applications where clarity is key
- Ideal for countertops and specialty projects
- Mix Ratio: 2A - 1B
- Available in 1.5 gallon kit

Coverage Varies

POLY ARMOUR

REPAIR

Quick Fix

- Rapid set time allows for minimal down time allowing the user to offer quick return to service
- Works well even in cold climate applications
- Ultra low viscosity formula allows for easy application
- Coverage varies
- Available in 1 gallon and 2 gallons
- Mix Ratio: 1A - 1B

CrackBond

- Two component, rapid curing, elastomeric, polyurea joint filler
- Keeps joints free of debris and provides a continuous surface for weight loading
- Treated joints can be opened to traffic in 90 minutes at 75 F
- Self-leveling, low viscosity system
- Acceptable for use in USDA inspected facilities
- 100% solvent free system with zero VOC content
- Wide application and service temperature range, including freezer applications
- Can be covered with primer/topcoat for aesthetics, but strict instructions must be followed
- Available in a 9oz or 22oz tube

TINT - CANYON CLAY

- Composed of the finest uniformly shaped and sized quartz granules.
- This unique product is brilliantly color-coated with a superior resin system and high-quality colorfast pigments to provide optimal durability and extreme performance in the most demanding environments.
- In addition to their superior resilience to harsh chemicals and UV rays, Colored Quartz Aggregates can be applied to achieve many different textures and levels of slip resistance.
- 50 lb Bag

POLY ARMOUR

DYE & ADDITIVES

Armour Dye

A translucent, U.V. stable dye, formulated using color designed to penetrate exterior and interior cementitious surfaces.

- Create the look of a beautiful, custom acid stained floor in about 1/3 of the time.
- Available in half gallon or 2 gallon concentrate
- Coverage: 400-600 square feet per gallon

Penetrating Agent

- Improves Armour Dye penetration and mottle effect
- Excellent for high temperature applications
- Minimizes material waste and surface residue
- 20 ounce bottle (1 ounce per quart of stain, 4 ounces per gallon of stain and 20 oz per 5 gallons of stain)

Armour Guard

- Poly Armour Anti-Scratch Additive
- Mixes with Part A of a 2 gallon kit Poly Armour
- Dramatically increases abrasion resistance
- Does not impair clarity of clear coatst
- 1 pint container

Armour Grip

- Anti-Skid Coating Additive
- Provides Superior Slip Resistance
- Great for Sealers, Urethanes, Epoxies
- Available in 40, 60 & 100 grit
- 1 pint container
