### 4. FIRST AID MEASURES

Description of first aid measures		
General advice	Move out of the dangerous area. Consult a physician. Provide this Safety Data Sheet to the doctor in attendance.	
Eye contact	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.	
Skin contact	IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash off immediately with soap and plenty of water. If skin irritation persists, call a physician.	
Inhalation	IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If breathing is irregular or stopped, administer artificial respiration. If symptoms persist, call a physician.	
Ingestion	IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Do NOT induce vomiting. Never give anything by mouth to an unconscious person.	
Most important symptoms and effe	cts, both acute and delayed	
Symptoms	Eye, Skin, and Respiratory Irritation.	
Indication of any immediate medical attention and special treatment needed		
Note to physicians	Treat symptomatically. For additional information, see Safety Data Sheet.	
5. FIRE-FIGHTING MEASURES		

## Suitable extinguishing media

Dry Chemical, Alcohol Resistant Foam, Halon or Carbon Dioxide.

Unsuitable extinguishing media CAUTION: Use of water spray when fighting fire may be inefficient.

#### Specific hazards arising from the chemical

In a fire or if heated a pressure increase may occur and the container may burst.

Hazardous combustion products Carbon dioxide (CO2). Carbon monoxide.

#### Explosion data

Sensitivity to Mechanical ImpactNot available.Sensitivity to Static DischargeMay be ignited by friction, heat, sparks or flames.

#### Protective equipment and precautions for firefighters

Wear self-contained breathing apparatus and protective suit.

### 6. ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

 
 Personal precautions
 Use personal protective equipment as required. P261 - Avoid breathing dust/fume/gas/mist/vapors/spray. Ensure adequate ventilation, especially in confined areas.

	Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.		
Environmental precautions			
Environmental precautions	Prevent further leakage or spillage if safe to do so. Do not allow product to enter any drains or waterways.		
Methods and material for containm	ent and cleaning up		
Methods for containment	Prevent further leakage or spillage if safe to do so. Dike to collect large liquid spills.		
Methods for cleaning up	Use a non-combustible material like vermiculite or sand to soak up the product and place into a container for later disposal. Use clean non-sparking tools to collect absorbed material. Dispose according to local regulations.		
	7. HANDLING AND STORAGE		
Precautions for safe handling			
Advice on safe handling	Do not handle until all safety precautions have been read and understood. Avoid contact with skin and eyes. Avoidbreathing dust/fume/gas/mist/vapours/spray. Keep away from heat, hot surfaces, sparks, open flames and otherignition sources. No smoking. Ground and bond container and receiving equipment. Take measures to prevent thebuildup of electrostatic charge. Use non-sparking tools. Wash hands and skin thoroughly after handling. Use onlyoutdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection.		
Conditions for safe storage, including any incompatibilities			
Storage Conditions	Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.		
Incompatible materials	Keep away from strong oxidizing agents, strong alkalis, and strong acids.		
8. EXPOSURE CONTROLS/PERSONAL PROTECTION

### Appropriate engineering controls

Engineering Controls General/Local Ventilation Recommended.

### Individual protection measures, such as personal protective equipment

Eye/face protection	Wear safety glasses with side shields (or goggles).
Skin and body protection	Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls, as appropriate, to prevent skin contact. Wear chemical resistant gloves at minimum. Wash skin immediately upon contact. Wash hands at mealtime and end of shift.

Respiratory protection	Use respiratory protection unless adequate local exhaust ventilation is provided or exposure assessment demonstrates that exposures are within recommended exposure guidelines. Where concentrations are above recommended limits or are unknown, appropriate respiratory protection should be worn. Follow OSHA respirator regulations (29 CFR 1910.134) and use NIOSH/MSHA approved respirators.
General Hygiene Considerations	Handle in accordance with good industrial hygiene and safety practice. Wash hands before and after breaks and at the end of the work day.
