DECORATIVE SEALER

D-One

- Non-yellowing, low sheen
- Siloxane modified methyl methacrylate sealer
- Meets cure & seal specs ASTM C-309
- Minimizes damage due to water and salt water from de-icing road salts and salt water pool systems
- Excellent penetration and adhesion to clean, unsealed new or old concrete
- Coverage: 200 - 300 square feet per gallon
- Available in 1, 5 & 55 gallons
- When spraying D-One use a Chapin Xtreme Sprayer (19049, 19069, 19249 or 22049)

D-One Plus

- Non-yellowing, medium sheen
- Siloxane modified methyl methacrylate sealer
- Meets cure & seal specs ASTM C-1315, Type 1, Class A & B
- Minimizes damage due to water and salt water from de-icing road salts and salt water pool systems
- Excellent penetration and adhesion to clean, unsealed new or old concrete
- Coverage: 200 - 300 square feet per gallon
- Available in 1, 5 & 55 gallons
- When spraying D-One Plus use a Chapin Xtreme Sprayer (19049, 19069, 19249 or 22049)

DECORATIVE SEALER

Diamond Shine

- High gloss, UV resistant acrylic copolymer concrete sealer intended as a cure/cure and seal for all types of concrete.
- Improved resistance to rain, sun, freezing temperatures, stains, and other pollutants that sometimes can be hazardous to concrete.
- It can be considered an ultimate multi-use concrete sealer.
- 250-350 square feet per gallon
- Available in 1, 5 & 55 gallons

Diamond Shine 30

- High gloss, UV resistant, acrylic copolymer exposed aggregate sealer
- Clear but can be tinted
- Best used to seal pea gravel exposed aggregate
- 200-300 square feet per gallon
- Available in 1, 5 & 55 gallons

DECORATIVE SEALER

Super Stamp Seal

- A medium gloss, non-yellowing, pure acrylic concrete lacquer style sealer designed for decorative concrete.
- Improved resistance to rain, the sun, freezing temperatures, stains, and other pollutants that sometimes can be hazardous to concrete.
- Coverage: 250 - 350 square feet per gallon
- Available in 1, 5 & 55 gallons

Acrylic Color Pack

- A high solids, concentrated, solvent based acrylic tint system specially formulated for solvent based acrylic sealers like Super Stamp Seal & Diamond Shine.
- A semi-transparent stain or a solid opaque colored finish. Decorative way to seal a variety of concrete substrates.
- Recommended for use on unsealed or untreated warehouse floors, garages, basements, docks, driveways, sidewalks and any other concrete surfaces
- 32 oz. container

Rejuvenator

- A strong blend of aromatic and ketone solvents & surfactants
- Melts the heavily coated solvent based acrylic sealer and helps restore the original appearance without adding more acrylic
- Can be sprayed with an acetone sprayer
- Coverage: 100 - 200 square feet per gallon
- Available in 1, 5 & 55 gallons

DECORATIVE SEALER

Color Boost WB

- An active water-based silicone water repellent and impregnating agent for porous masonry surfaces such as concrete, block, brick and unglazed tile.
- Enhances color without leaving gloss
- Will not make surfaces any more slippery
- Deeply penetrates surface for maximum water repellency
- Low volatility and low odor
- Recommended for stamped, colored, broom finish, exposed aggregate, brick & block, pavers, concrete walls, natural & artificial stone, etc.
- Great for pool decks, patios, sidewalks, courtyards, etc.
- Coverage: 100 - 300 square feet per gallon (dependent on surface porosity and texture)
- Available in 1, 5 & 55 gallons

Color Boost SB

- An active solvent based silicone water repellent and impregnating agent for porous masonry surfaces such as concrete, block, brick and unglazed tile
- Enhances color without leaving gloss
- Will not make surfaces any more slippery
- Deeply penetrates surface for maximum water repellency
- Low VOC compliant
- Recommended for stamped, colored, broom finish, exposed aggregate, brick & block, pavers, concrete walls, natural and artificial stone, etc.
- Great for pool decks, patios, sidewalks, courtyards, etc.
- Coverage: 100 - 300 square feet per gallon
- Available in 1, 5 & 55 gallons

POLISHING & DENSIFYING

Lithium Silicate

- An environmentally friendly, VOC free, lithium silicate concrete floor densifier, hardener and sealer
- Designed to penetrate untreated, bare concrete surfaces providing a permanent glossy, dust proof floor
- UV Stable
- Available in 1, 5 & 55 gallons
- Coverage: 400-1000 square feet per gallon

Polishing Dye

- A translucent dye, formulated using very fine particles of color designed to penetrate and color interior cementitious surfaces, including polished concrete
- To be mixed with 1 gallon of Acetone
- Available in 1 gallon concentrate
- Coverage: 400-600 square feet per gallon

Penetrating Agent

- Improves Dye penetration and mottle effect
- Excellent for high temperature applications
- Minimizes material waste and surface residue
- 20 ounce bottle (1 ounce per quart of stain, 4 ounces per gallon of stain and 20 ounces per 5 gallons of stain)

Polishing Guard

- Copolymer blend of high gloss sealer and high performance lithium silicate densifier
- Designed to give standard concrete surfaces beautiful sheen while providing improved resistance to stains and increased surface hardness
- Low Odor
- UV Stable
- Available in 1, 5 & 55 gallons
- Coverage: 1500-2000 square feet per gallon

CURING / SEALING

EasySpray 309

- VOC compliant, UV resistant, low viscosity 15% solids solvent based acrylic copolymer curing and sealing compound
- Can be used as a means of dustproofing most concrete surfaces
- Forms a moisture retentive film on freshly placed concrete
- Meets ASTM C 309 specs
- Coverage: 250 - 350 square feet per gallon
- Available in 5 & 55 gallons

Deco-Cure

A clear, water based resin curing compound for concrete. Efficiently cures concrete and then decomposes rapidly when exposed to UV light, sunlight, and abrasion. It is a VOC compliant alternative to solvent based dissipating resin cures.

- Excellent moisture retention for proper curing
- Protects slabs from construction dirt and stains
- Economical and easy to apply with standard equipment
- Milky white during application for gauging proper coverage rate
- Coverage: 200- 250 square feet per gallon
- Available in 5 gallon only

CURE & SEALS

D-Guard Clear 25

- A VOC compliant, low viscosity 25% solids solvent based acrylic copolymer curing and sealing compound, as well as a dust-proofer for concrete surfaces.
- Offers improved resistance to rain, sun, freezing temperatures, stains, and other pollutants that sometimes can be hazardous to concrete.
- Forms a superior moisture retentive film on freshly placed concrete.
- When spraying D-Guard Clear 25 use a Chapin Xtreme Sprayer (19049, 19069, 19249 or 22049)
- Available in 5 & 55 gallons

D-Guard WB 309

- A non-yellowing, water-based product designed for curing and sealing applications.
- A penetrating and breathable coating that provides a satin or low gloss finish to a multitude of interior & exterior horizontal or vertical concrete and masonry finishes.
- Self-cross linking, which provides better film formation, early water resistance, adhesion, toughness and outstanding efflorescence and alkali resistance.
- Available in 5 & 55 gallons

D-Guard WB 25

- Low VOC, low odor, non-yellowing, water-based product designed for curing and sealing applications
- Perfect for low ventilated areas where low VOC's and low odor are required
- Non-yellowing formula assures product's superior resistance to the elements
- Medium viscosity formula allows for easy application through sprayers
- Superior efflorescence and alkali resistance compared to common solvent based acrylic sealers
- Recommended for interior & exterior freshly placed, finished and aged concrete where a medium gloss water based curing and sealing compound is specified
- Coverage: 250 - 350 square feet per gallon (New, Unsealed Concrete) & 350 - 400 square feet per gallon (Old, Sealed Concrete)
- Available in 5 & 55 gallons

EXPOSED AGGREGATE

DecoStone 30 - Browntone

- Solvent-based, brown tinted acrylic exposed aggregate sealer
- High gloss
- 350 VOC
- Designed for application to pea gravel exposed aggregate
- 200-300 square feet per gallon
- Available in 5 & 55 gallons

Browntone tint - Graytone tint

- 1 pack per pail
- For Diamond shine & Diamond shine 30
- Browntone makes a translucent tinted sealer to accent the color of exposed pea gravel
- Graytone makes a translucent tinted sealer to accent the color of exposed Limestone
- 4 oz. bottle

Retarder S

- A water soluble liquid specially formulated to retard the surface mortar of fresh concrete to expose aggregates in freshly placed concrete surfaces.
- Green in color to allow for easy identification of applied areas and to ensure appropriate uniform coverage.
- Should be used to achieve architectural color, texture, and appearance without mechanical means such as sandblasting.
- Available in 1, 5 & 55 gallons

Retarder F

- A green water soluble gel that when applied on the surface of vertical freshly poured concrete retards the surface mortar to expose the aggregate.
- This leaves an architectural finish by exposing the color and texture of the natural aggregate.
- Coverage: 150 sq. ft. @ 1/8" per gallon
- Available in 1, 5 & 55 gallons

EXPOSED AGGREGATE

Deactivator

- Makes exposed aggregate finishes easier and more consistent
- It is typically applied to freshly-placed concrete to prevent cement paste hardening and achieve more controlled exposed aggregate finishes
- Unlike sugar-based retarders with uncertain levels of retardation, Deactivator selectively halts the hydration process down to a controlled depth
- 6 predetermined depths of exposure are available, color-coded for identification, to provide consistent, repeatable cement paste removal and aggregate reveal
- Deactivator provides a longer window before the surface paste must be removed, it allows underlying concrete to harden properly, locking in aggregate and reducing pop-outs
- Water-soluble for easy removal with high pressure water washing and scrubbing equipment
- Coverage: 150 square feet per gallon

Beige - Micro Etch

Purple - Acid Etch - .2mm

Blue - Light Sandblast - 1/64" or .5mm

Green - Heavy Sandblast - 1/16" or 2mm

Red - Exposure - 7/64" or 3mm

Yellow - Exposure - 3/16" or 5mm

PENETRATING SEALER

D-Shield

- Dual functioning chemical reactive curing compound and water repellent with a low viscosity for better penetration on concrete substrates
- Will not change the color of the concrete
- Minimizes damage due to water and salt water from de-icing road salts on freshly poured or existing unsealed concrete
- Meets cure & seal specs ASTM C-309, Type 1, Class A & B and AASHTO Spec M-148, Type 1, Class A & B
- Coverage: 200 - 300 square feet per gallon
- Available in 1, 5 & 55 gallons

D-Shield Clear

- Water-based penetrating sealer & water repellent
- A reactive, penetrating catalyzed silicate solution that fuses within porous substrates of concrete, brick, stone, and mortar to combat freeze/thaw damage, scaling and spalling, and limit penetration of stains and damaging impurities such as oil, gas, grease, and salt
- Reduces water absorption into the substrate, thus reducing spalling due to freeze/thaw and efflorescence, thereby increasing the life of the substrate
- Minimizes damage due to water and salt water from de-icing road salts and salt water pool systems
- Excellent penetration and adhesion to clean, unsealed new concrete
- Will not change the color of the concrete
- Recommended for interior & exterior, concrete pool decks, concrete parking lots, sidewalks, patios and stoops, smooth troweled concrete, broom finish concrete, most other new concrete surfaces where water and salt damaged resistance is required
- Coverage: 250 - 350 square feet per gallon
- Available in 5 & 55 gallons

PENETRATING SEALER

DecoBlock

- A 7.5% active water-based siloxane/silane water repellent and impregnating agent for porous masonry surfaces such as concrete, block, brick and unglazed tile
- Excellent resistance to mold, mildew and fungus
- Excellent Water Repellency
- Provides Natural Look
- Available in 5 & 55 gallons
- Coverage: 100 - 300 square feet per gallon

DecoBlock is an active water-based siloxane/silane water repellent and impregnating agent for porous masonry surfaces such as concrete, block, brick, and unglazed tile. DecoBlock will penetrate and chemically bond deep within the substrate to provide long lasting protection against deterioration or staining due to water conditions. DecoBlock will not impair the natural breathing characteristics of treated substrates, nor will it produce a film. DecoBlock will help concrete and masonry surfaces to resist common issues such as cracking, efflorescence, spalling, staining, and other damages caused by intrusion of water.

DecoBlock 10

- A 10% active water-based siloxane/silane water repellent and impregnating agent for porous masonry surfaces such as concrete, block, brick and unglazed tile
- Excellent resistance to mold, mildew and fungus
- Excellent Water Repellency
- Provides Natural Look
- Available in 5 & 55 gallons
- Coverage: 100 - 300 square feet per gallon

SOLVENTS & CLEANERS

Raw Solvents are used in various aspects of industry. Solvent Retarder, Xylene, and Acetone are used in the paint and coatings manufacturing process. These solvents can be used for many various reasons such as paint and coating clean-up for tools & accessories and coating re-emulsification for the purpose of fixing faulty applications/conditions, etc.

Solvent Retarder

- Use *Solvent Retarder* for clean up and fixing many issues common with solvent based sealers
- Slower Drying
- 1, 5, & 55 gallons
- Coverage: Varies

Acetone

- Use *Acetone* for mixing with *Armour Dye & Polishing Dye™* and for clean-up
- Available in 1, 5 & 55 gallons
- Coverage: Varies

Xylene

- Use *Xylene* for clean-up and fixing many issues common with solvent based sealers
- 1, 5, & 55 gallons
- Coverage: Varies

Nock Off

- Roll on biodegradable paint remover
- Removes durable industrial coatings like urethanes & epoxies
- User Friendly and Non-flammable
- Environmentally friendly, does not deplete the ozone
- Zero VOC product, No carcinogens
- Available in 1, 5 & 55 gallons

Citrus Degreaser

- Concentrated hard working formula
- Dilute up to 1:10 with clean water
- Citrus Based Concrete Degreaser
- Biodegradable Formulation
- Quickly Dissolves most kinds of Grease & Motor Oil
- Coverage: Varies

Concrete Cleaner

- No harsh odors
- Safe for use with scrubbing machines
- Excellent cleaner for daily mopping of sealed or coated surfaces
- VOC compliant for all areas in the U.S. & Canada
- Coverage: Varies

EXTRAS & ADDITIVES

Rust Remover

- Concentrated solution can be diluted up to 1:3 with water
- Safer solution that releases less fumes than similar products
- Removes most rust stains on concrete, pavers, masonry brick & block
- Coverage: 100 - 200 square feet per gallon
- Size: 1 gallon Jug

Crete Blast

- Organic, Biodegradable concrete debonding agent and remover
- Non-flammable, non-combustible, non-corrosive, not hazardous
- Perfect for concrete debonding and removal on trucks, mixers, tools, saws, finishing machines
- Coverage: Varies
- Size: 1 gallon Jug

Deco-Prep

- Acid based micro etching solution designed for profiling of unsealed trowel concrete surfaces
- Slightly opens the pores to allow better acid staining color development and reaction
- Safe replacement to muriatic acid
- Coverage: 150 - 250 square feet per gallon
- Size: 1 gallon Jug

Deco Matte

- Matting agent for solvent based acrylic sealer
- For a satin finish, mix one pint container into a 5 gallon pail of solvent based acrylic sealer
- For a matte finish, mix two pint containers into a 5 gallon pail of solvent based acrylic sealer
- Size: 1 pint

Deco Grip

- Finely ground polymer material for addition to concrete sealers for slip resistance and fine texturing
- Good Chemical & Abrasion Resistance
- Can be added to most film forming coatings
- 16 oz to be mixed into 5 gallons of concrete sealer
- Available in 40, 60 & 100 grit

The Mission: Showing our appreciation by providing veterans a backyard makeover.

High Performance Coating Systems

Epoxy | Urethane | Polyaspartic

POLY ARMOUR

LIQUID METALS

LIQUID METALS

HIGH PERFORMANCE COATING SYSTEMS

ELECTRIC EPOXY

Rockin' Benefits

- 100% Epoxy = Extreme Durability
- Seamless Flooring with no Grout Lines
- Easy to Clean and Maintain
- Limitless Color Options
- Available in 3 gallon & 15 gallon kit
- Base coat 150 sq ft per gallon
- Metallic coat 75 sq ft per gallon
- Mix Ratio: 2A - 1B

Liquid Metals Are Perfect For

- Retail Stores
- Living Spaces
- Office Buildings
- Garage Floors

8 oz by weight to be mixed with a 3 gallon kit of Electric Epoxy

1. Prepped Concrete
2. Base Coat
3. Metallic Coat
4. Clear Top Coat

* Base coat of black or white

The color samples above are representations only. Test prior to use.

HIGH PERFORMANCE COATING SYSTEMS

URETHANES

Rock Hard Urethane

Rock Hard out performs many similar products on today's market.

- Low Odor
- 85% solids, low VOC, solvent based urethane
- Single component & recoatable
- Premium hardness and chemical resistance
- Superior leveling, gloss, and UV stability
- Coverage: 300-350 square feet per gallon
- Available in 1 gallon jug

WB Matte Urethane

- High solids, matte finish, two-component water based aliphatic polyurethane.
- Excellent hardness, abrasion, hot tire, & chemical resistance
- Low VOC, and low odor with multiple uses
- Available in 3 gallon kit, Mix Ratio 2A - 1B
- Coverage: 200 - 300 square feet per gallon

Gloss WB Urethane

- High solids, high gloss finish
- Two-component water based aliphatic polyurethane.
- Excellent hardness, abrasion, hot tire, & chemical resistance
- Low VOC, and low odor with multiple uses
- Available in 1.25 & 2.5 gallon kit, Mix Ratio 4A - 1B
- Coverage: 200 - 300 square feet per gallon

HIGH PERFORMANCE COATING SYSTEMS

CRACK REPAIR

Quik Fix Filler

- Rapid set time allows for minimal down time allowing the user to offer quick return to service
- Works well even in cold climate applications
- Ultra low viscosity formula allows for easy application
- Coverage varies
- Available in 1 gallon and 2 gallon kit
- Mix Ratio 1A - 1B

before

after

CrackBond

- Self-leveling, low viscosity system
- Two component, rapid curing, elastomeric, polyurea joint filler
- Treated joints can be opened to traffic in 90 minutes at 75 F
- Acceptable for use in USDA inspected facilities
- 100% solvent free system with zero VOC content
- Keeps joints free of debris & provides a continuous surface for weight loading
- Wide application and service temperature range, including freezer applications
- Can be covered with primer/topcoat for aesthetics, but strict instructions must be followed
- Available in a 9oz or 22oz tube

COMMERCIAL & INDUSTRIAL RESINOUS FLOORING

POLY ARMOUR

HIGH PERFORMANCE COATING SYSTEMS

The quickest, most immediate way to create an attractive yet durable floor in most situations. Solid color or broadcast, it's the preferred choice of contractors for saving time and labor while providing that sought after combination of strength and beauty.

Poly Armour Clear 90

- Low Odor Formula
- Longer Pot Life
- Crystal clear high performance sealer
- Durability unrivaled by other top coats
- Excellent Abrasion & Chemical Resistance

90 - 200 - 300 ft² per gallon

Poly Armour Clear 70

- Crystal clear high performance sealer
- Durability unrivaled by other top coats
- Excellent Abrasion & Chemical Resistance
- Low Temperature Installation

*70 - 200 - 300 ft² per gallon*v

POLY ARMOUR Advantages:

- One day installation
- Next day return to service
- Superior stain & chemical resistance
- UV stable - Non yellowing
- No VOC & odor free applications available
- Mix Ratio: 1A - 1B
- Extreme durability
- Low temperature cure
- No hot tire pick up
- Available in 2 gallon or 10 gallon kits

1. Prepped Concrete
2. Prime Coat
3. Base Coat
4. Top Coat

POLY ARMOUR

SHORT FILLED 90, 70

Short Filled Kit

- Provides ultimate abrasion, impact and wear resistance far exceeding many other applications
- Entire application, in most cases, can be accomplished in just one day
- Excellent penetrating and bonding capabilities provide many years of durability
- Highly economical considering the days of labor that can be saved by using a one day application
- Armour Tint is mixed into Part A of Poly Armour
- Available in 1.75 gallon or 8.75 gallon kit

ARMOUR TINT™

- Color Pack for Poly Armour Short Filled Kit
- A high solids, concentrated, solvent based tint system specially formulated for Poly Armour
- A superior choice to obtain a semi transparent stain or a solid opaque colored finish
- Mixes into Part A of the Poly Armour Short Filled
- 15 popular colors

Armour tint sold separately

70 - 200 - 300 ft² per gallon

90 - 200 - 300 ft² per gallon

*No VOC & odor free available

The color samples above are representations only. Test prior to use.

POLY ARMOUR

100% EPOXY

100 Epoxy

- A 100% solids, two component, cyclo-aliphatic amine epoxy system with excellent durability including abrasion resistance, chemical resistance & hot tire resistance
- User friendly high performance concrete flooring system.
- Designed for a variety of seamless high build concrete flooring applications
- An excellent coating for auto service centers, warehouses, computer rooms, laboratories, aircraft hangars, cafeterias, exterior tanks and other areas where high performance, abrasion resistance and chemical resistance are required
- Also an excellent coating choice for interior decorative concrete
- Available in 3 gallon & 15 gallon kit
- Mix Ratio 2A - 1B

COVERAGE RATE: 75 - 125 ft. per gallon*

100 Epoxy Tint

- A high solids, concentrated, solvent based tint system specially formulated for Poly Armour 100 Epoxy
- A superior choice to obtain a semi transparent stain or a solid opaque colored finish
- Mixes into Part A of the Poly Armour 100 Epoxy

4. Top Coat
3. Tint Coat
2. Base Coat
1. Concrete

*No VOC & odor free available

The color samples above are representations only. Test prior to use.

POLY ARMOUR

PRIMER

Moisture Shield

- A high performance epoxy primer system designed to reduce water vapor transmission
- Superior adhesion for concrete affected by moisture vapor transmission
- Excellent base coat for many epoxies and urethanes
- Performs well where other coatings fail
- Available in 3 gallon kit
- Mix Ratio 2A -1B

4. Top Coat
3. Base Coat
2. Prime Coat
1. Concrete

COVERAGE RATE: 200 - 250 ft² per gallon* @ 6- 8 mils

WB Epoxy

Specially formulated, low odor, two component, water based epoxy primer for interior use. This product provides excellent substrate penetration and is a suitable primer for most epoxies, urethanes, polyureas & polyaspartic polyureas.

COVERAGE RATE: 200 - 300 ft² per gallon* @ 2 - 3 mils

- Low viscosity allows for excellent substrate wetting and penetration.
- Provides superior bond to concrete, making it an ideal primer for many other coatings.
- Fast cure times and low odor make this a concrete contractor's favorite primer.
- Works well as a stand alone, clear epoxy for interior applications.
- Available in 2 gallon kit
- Mix Ratio: 1A - 1B

POLY ARMOUR

SPECIALTY PRODUCTS

Floor Flex

- A single component flexible waterproofing membrane that creates a seamless isolation barrier over wood and concrete surfaces
- Can be used as a stand-alone or a flexible underlayment for Deco-Crete coatings & overlays
- Available in 5 gallon pails

Ultra Clear 100

- Super clear, self leveling countertop epoxy
- Designed for high build applications where clarity is key
- Ideal for countertops and specialty projects
- Mix Ratio: 2A - 1B
- Available in 1.5 gallon kit

Coverage Varies

DYE & ADDITIVES

Armour Dye

A translucent, U.V. stable dye, formulated using color designed to penetrate exterior and interior cementitious surfaces.

- Create the look of a beautiful, custom acid stained floor in about 1/3 of the time.
- Available in half gallon or 2 gallon concentrate
- Coverage: 400-600 square feet per gallon

Penetrating Agent

- Improves Armour Dye penetration and mottle effect
- Excellent for high temperature applications
- Minimizes material waste and surface residue
- 20 ounce bottle (1 ounce per quart of stain, 4 ounces per gallon of stain and 20 oz per 5 gallons of stain)

Armour Guard

- Poly Armour Anti-Scratch Additive
- Mixes with Part A of a 2 gallon kit Poly Armour
- Dramatically increases abrasion resistance
- Does not impair clarity of clear coat
- 1 pint container

Armour Grip

- Anti-Skid Coating Additive
- Provides Superior Slip Resistance
- Great for Sealers, Urethanes, Epoxies
- Available in 40, 60 & 100 grit
- 1 pint container
