

COLOR HARDENER

Color Dry Shake Hardener

PRODUCT DESCRIPTION

Deco-Crete Color Hardener is a colored dry shake hardener that is broadcast by hand over the top of freshly placed concrete and worked in with a wood or resin float to form a dense, colored concrete "skin" on the slab surface. When used with Deco-Crete Antique Release, the ultimate textured surface can be achieved. The color hardened surface can also be stained after the concrete has cured for approximately 28 days. Sealing is highly recommended for all decorative concrete. For best results, use D-One, or Super Stamp Seal decorative concrete sealers for ultimate color enhancement.

RECOMENDED APPLICATIONS

- + Stamp Concrete
- + Stenciled Concrete
- + Driveways
- + Patios
- + Sidewalks

CAUTION

KEEP OUT OF REACH OF CHILDREN. Before using or handling, read the Safety Data Sheet (SDS) and Warranty. DO NOT TAKE INTERNALLY. Avoid contact with skin and eye. Use only with adequate ventilation and use a respirator when exposure levels are above applicable limits.

WARRANTY

This product is not for public use and is intended for use by licensed contractors, experienced and trained in the use of these products. It is warranted to be of uniform quality with manufacturing tolerances. The manufacturer has no control over the use of this product, therefore, no warranty, expressed or implied, is or can be made either as to the affects or as results of such use. In any case, the manufacturer's obligations shall be limited to refunding the purchase price or replacing material proven defective. The end user shall be responsible for determining product's suitability and assumes all risks and liability.
