

RE-IMAGINE YOUR CONCRETE FLOOR IN FIVE EASY STEPS.

- STEP 1** Floor Preparation.
- STEP 2** Apply two coats of reactive concrete stain color.
- STEP 3** Residue Removal.
- STEP 4** Protection. Apply protective coating/wax.
- STEP 5** Maintenance. Clean and wax regularly.

Concrete must be in good condition, untreated, unsealed, and never acid etched. Otherwise additional cleaning, stripping or abrading of surface will be required.

ADDITIONAL KEMIKO PRODUCTS TO CONSIDER

Terra Fresco™ Micro Topping System –

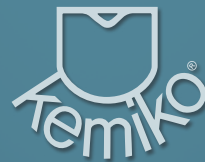

Cementitious overlay applied on top of existing concrete with superficial cracks, permanent stains or that has been acid etched. Provides a clean, uniform substrate to which Kemiko Stone Tone Stains and Kemiko Dyes can be applied for decorative color effects.

Kemiko Dyes – Water and solvent based interior concrete dyes in a broad range of colors. These dyes produce intense colors and can be blended together to create countless color variations. Plus, they can mimic the look of Kemiko's Stone Tone Stains. Applies over bare concrete, Terra Fresco Micro Topping and Stone Tone Stains.

Epoxy/Polyurethane Floor Systems – Kemiko offers a variety of epoxy/polyurethane coatings to address specific performance requirements. These include coatings that provide hot tire resistance in garages and on driveways and provide chemical & abrasion resistance in high traffic/use areas. Plus, they are available in clear and colors. Kemiko also provides a solution for controlling moisture or water vapor transmission in basements and other damp areas.

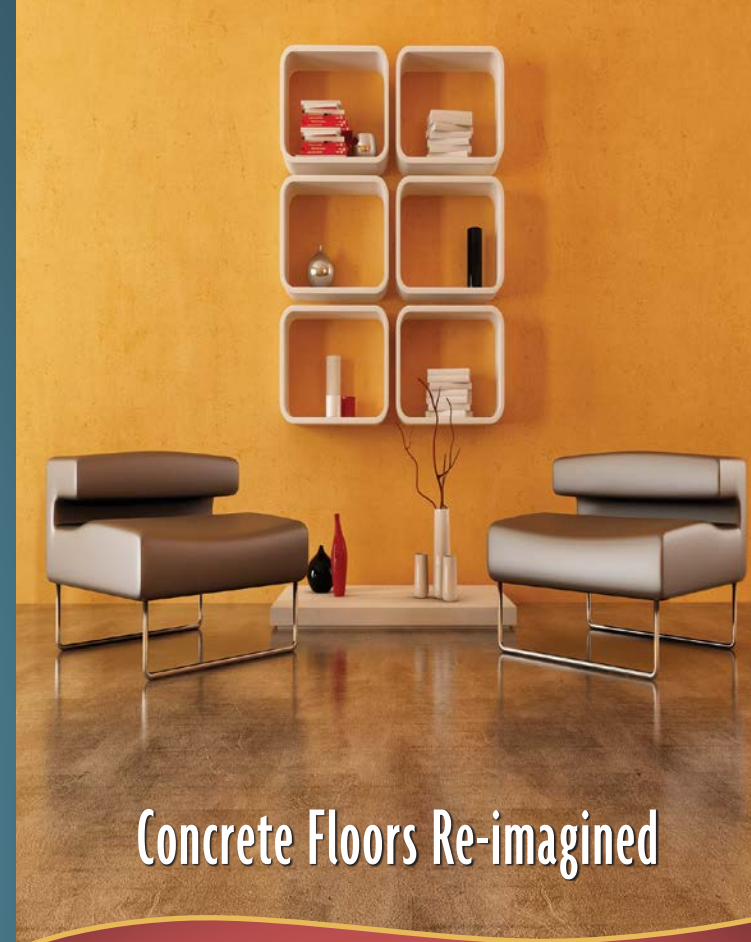

Concrete Coatings Experts. Since 1930.

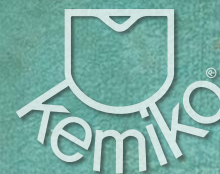

Kemiko products are available through independent Kemiko retailers.

Concrete Floors Re-imagined

KEMIKO
Concrete Coatings and Floor Systems

KEMIKO ADVANTAGES

KEMIKO is a complete line of concrete floor products that create an incomparable, decorative interior or exterior floor space.

- ➔ **Total Floor System**
Complete line of Kemiko products to create and maintain your floor.
- ➔ **Permanent Concrete Stain**
Color won't fade, chip, peel or wash away.
- ➔ **Zero and Low VOC Products**
Low odor and eco-friendly.
- ➔ **Durability**
Kemiko protective coatings and waxes shield against wear and tear.
- ➔ **Low Maintenance**
Simply clean and wax regularly with Kemiko products.

PERSONALIZED
Eco-Friendly
VERSATILE
UNIQUE
Visually Stunning

Re-imagine your concrete with Kemiko.
Create a floor you'll love for a lifetime.

GUIDE TO KEMIKO PRODUCTS

STONE TONE™ STAIN – This reactive acid stain produces unique, permanent floor colors by reacting with the minerals present in the concrete. The color will not fade, chip, peel or wash away. **2**

NEUTRA CLEAN™ – Industrial strength, water based degreaser designed for use with Kemiko products. Concentrated formula is free of hazardous solvents and has a light citrus scent. **1 3 5**

CLEAR-A-THANE™ – Non-yellowing, water based protective coating. Provides interior/exterior protection against staining, water penetration, acids, alkalis and UV light. **4**

STONE TONE™ SEALER II – Non-yellowing, water based protective coating. Provides interior/exterior protection against staining and UV light. **4**

REPELS™ SEALER – Natural sheen finish, water based protective coating. Provides exterior protection to repel water and reduce frost damage and efflorescence. Also offers resistance against UV light and high alkalinity exposure. **4**

EASY SHINE™ MOP ON WAX – Gloss or satin finish, water based protective wax. Provides interior protection against water penetration, scuffing and marring. Apply over sealed concrete. **4 5**

STONE TONE™ BUFF-ON WAX – Low sheen finish water based high durability, protective wax. Provides interior protection against water penetration, scuffing and marring. Use floor buffing equipment for application. Apply over unsealed concrete. **4 5**

EASY STRIP™ – Industrial strength, water based wax stripper/degreaser/cleaner. Designed specifically for removing Easy Shine Mop on Wax. Concentrated formula is free of hazardous solvents and has a light ammonia scent. **5**
